

# JAGUAR F-TYPE

SPECIFICATION AND PRICE GUIDE  
APRIL 2019

# THE CONCEPT OF F-TYPE

The Jaguar F-TYPE is the latest in a distinguished bloodline of powerful, agile and distinctive sports cars. Combining exhilarating performance, accomplished handling and cutting-edge technology, it delivers an exceptional driver-focused experience.

F-TYPE's latest enhancements ensure it remains as up-to-date as it is special. Jaguar's most advanced infotainment system, Touch Pro, is standard with a highly responsive 10" Touchscreen and improved navigation options. Connect Pro offers enhanced connectivity and a range of InControl Apps to make journeys quicker and easier.

LED headlights help the driver distinguish objects more clearly with a quality of beam that is closer to daylight. Exterior styling updates ensure F-TYPE is as striking as when it won 'Design of the Year' at the 2013 World Car Awards. Inside, slim seats save weight and give more space and comfort, while new finishers on interior details allow even more personalisation.

F-TYPE is a truly cutting-edge expression of the Art of Performance.

(1) Retail and OTR prices shown are effective from April 2019 and are based on the standard wheel fitment. (2) The figures provided are NEDCeq calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO<sub>2</sub> and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDCeq are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied.

The 'On the Road' retail price includes items such as delivery to retailer, Vehicle Excise Duty, Vehicle First Registration Fee, estimated cost of Number Plates and VAT (at 20%).

\*Top speed reduced to 186 (300 km/h) without SVR rear wing.

(1) The figures provided are NEDC<sub>eq</sub> calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO<sub>2</sub> and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDC<sub>eq</sub> are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied.

(2) WLTP is the new official EU test used to calculate standardised fuel consumption and CO<sub>2</sub> figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile. (3) TEL (Test Energy Low) and TEH (Test Energy High) figures are shown as a range under WLTP testing measures. TEL refers to the lowest/most economical figures (with the lightest set of options). TEH refers to the highest/least economical figures (with the heaviest set of options). WLTP legislation dictates that where there is <5g CO<sub>2</sub> variance between TEL and TEH, only the TEH is declared. (4) Please consult your local Jaguar Retailer for details of charges associated with option fitment. Weights reflect vehicles to standard specifications. Optional extras increase weight.

#### IMPORTANT NOTICE

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation. Comparisons are based on manufacturer's own data and testing prior to publication.

#### COLOURS

Print and online colours are representative only.

#### JAGUAR GEAR ACCESSORIES

All Jaguar Gear Accessories fitted by a Jaguar Retailer within one month or 1,000 miles (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 24 month unlimited mileage warranty. All Jaguar Gear Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. Some of the accessories featured are not available on all models. Please consult your nearest Jaguar Retailer for more information.

All our accessories are designed to be an integral part of Jaguar vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Jaguar Retailer who will be pleased to advise you on current specifications and any query you may have.
