THE ART OF PERFORMANCE

Every day we push performance to its limit. Our performance. Our cars’ performance.
We innovate, we engineer, we design. We master rules and then break them.
Only to push further. Past the limits of convention. This is when performance becomes art.

Jaguar. The Art of Performance.

THE CONCEPT OF F-TYPE

F-TYPE is the latest in a distinguished bloodline of powerful, agile and utterly distinctive cars. It looks, feels and drives like a true Jaguar sports car. Coupé or Convertible, Rear Wheel or All Wheel Drive, manual or automatic, every F-TYPE showcases Jaguar’s exhilarating performance, state-of-the-art handling and cutting-edge technology to deliver an unrivalled driver-focused experience.

Responsive supercharged engines. Lightweight aluminium body construction. Sophisticated suspension. InControl technologies to link you and your F-TYPE to the wider world. And options that include All Wheel Drive and Intelligent Driveline Dynamics for even greater performance capabilities, F-TYPE’s advanced technologies keep you safe, connected and entertained.

The F-TYPE range offers sports cars that only Jaguar could create, and it now encompasses the most powerful production car Jaguar has ever unleashed: F-TYPE SVR. Featuring enhanced suspension, advanced aerodynamics, lightweight technologies and a recalibrated engine, F-TYPE SVR takes the F-TYPE range to exceptional new levels. In every F-TYPE, performance and art combine to deliver a car that is intensely Jaguar, a car that embodies the Art of Performance.
F-TYPE - THE FACTS

Stunning design, exhilarating performance, instant response, agile handling and advanced technology, F-TYPE is created to deliver breathtaking driving experiences.

ALL WHEEL DRIVE

F-TYPE’s All Wheel Drive uses Intelligent Driveline Dynamics software to adapt to conditions, ensuring correct levels of front-to-rear torque when needed. The system preserves Jaguar’s legendary handling while maximising traction and efficiency.

TECHNOLOGY

F-TYPE is as connected to the world as it is to the road. Our suite of InControl infotainment technologies ensure that your personal devices can be seamlessly integrated with your car so you are conveniently up-to-date and in touch at all times. The InControl system also allows you to remotely monitor your F-TYPE via your smartphone.

HANDLING AND AGILITY

To optimise F-TYPE’s handling and agility, a range of driving technologies are available. These include Torque Vectoring, Adaptive Dynamics and an Electronic Active Differential. Each one works to enhance the driving experience through increased control, traction and feel.

JAGUAR CARE*

F-TYPE is now offered with a new unlimited mileage, three year warranty and three years’ servicing programme at no additional cost. We call this programme Jaguar Care. It makes F-TYPE’s overall cost of ownership one of the lowest in its class.

*Available in selected European markets only

VEHICLE SHOWN: F-TYPE R AWD IN STORM GREY WITH OPTIONAL EXTRAS (MARKET DEPENDENT)
DESIGN
The beauty of its lines, the purity of its form - the design of F-TYPE is a joy to behold. Coupé and Convertible bodystyles are available. Each has its own unique character, but both offer the thrills of F-TYPE performance and handling.

SUPERCHARGED PERFORMANCE
All F-TYPE engines use a twin vortex supercharger to eliminate acceleration lag. Throttle response is instantaneous with seamless power delivery and high levels of torque at all engine speeds. The latest engine to use this technology is the V8 unit found in F-TYPE SVR which makes it Jaguar’s most powerful production car ever.

ADVANCED BRAKING
Power demands control - it’s why we offer a number of braking systems across the F-TYPE range to match each car’s performance. All deliver confident, progressive feel and consistent response. Carbon Ceramic Brakes offer up to 21kg of weight saving and sustained performance in demanding conditions.

CHOICE OF TRANSMISSIONS
The F-TYPE range offers a lightning-fast automatic transmission, with fingertip paddleshift control. It is intelligent and adaptive to exploit F-TYPE’s power. A lightweight manual transmission is also available for a more involving drive.
DESIGN EXTERIOR PRINCIPLES

F-TYPE is a true performance car. Its powerful shape, proportions and style have earned international acclaim as the 2013 World Car Awards’ Design of the Year.

“A piece of design should tell a story. F-TYPE’s lines have a start, a direction and a conclusion. Make every line individual and aesthetically correct, with the right dimensions, and it will stand the test of time.”

Ian Callum, Jaguar Design Director

VEHICLE SHOWN: F-TYPE S AWD IN BLACK BERRY WITH OPTIONAL EXTRAS (MARKET DEPENDENT)
Rising vertically from the front spoiler and running up through elongated headlights, F-TYPE’s beautifully flowing body line begins to take shape. The line arcs over the front wheel, descending elegantly as it runs across the door, before culminating in a pronounced muscular rear haunch. F-TYPE leaves you under no illusion that this is a high performance sports car – the latest in a distinguished bloodline.

It is, in part, sculpted by the wind itself, formed by Jaguar’s state-of-the-art Computational Fluid Dynamics design methods. A front splitter beneath the grille and rear venturi manage airflow along the underside, while a deployable rear spoiler automatically rises at higher speeds to increase downforce and reduce drag. Even the door handles retract when not required, their flush design creating an uninterrupted airflow along F-TYPE’s flanks.
In F-TYPE you and the car become one. Every aspect of its 1+1 configuration is designed to create a bond. It wraps around you, taking your driving experience to greater heights.

The cockpit provides maximum visibility, minimal distractions and close-to-the-centre-of-gravity seating for a complete connection with the car. The low facia is free from clutter to increase the view ahead. The Active Central Air Vent, part of the advanced climate control system, hides the twin central air vents, which automatically rise from the dashboard as required and retract after use.

Choose standard Sport seats or the optional Performance seats, which are upholstered in Premium Leather and offer enhanced lateral support during dynamic driving. Sport seats can also be specified with the optional Premium Leather interior. This finishes the seats, upper facia, centre console and door casings in Premium Leather. Premium Leather interior with twin needle stitching and Performance seats are standard on F-TYPE R and F-TYPE SVR. F-TYPE SVR is also exclusively available with Quilted Leather.
F-TYPE keeps things simple so you can concentrate on enjoying the drive. It presents information only as necessary or when requested. Simple, clear and easy to read instruments feature two large analogue dials – essential in any sports car.

The three-spoke steering wheel incorporates key controls for ease of use. On models fitted with the Quickshift eight-speed automatic gearbox, gearshift paddles mounted behind the spokes give manual control so you don’t have to take your hands off the wheel. The SportShift Selector is simple and intuitive, offering full Auto mode and manual operation in Sports mode. You can select gears sequentially by tipping the lever forward to shift down a ratio or shift up a gear by pulling the lever back.

F-TYPE’s 8-inch colour Touchscreen is your single interaction point with the InControl infotainment system. This gives you direct control over navigation, music, phone, climate and many additional driver support systems including parking aids. InControl can be enhanced by its connectivity package, InControl Remote, its security package, InControl Secure, or by adding InControl Apps which enables you to control compatible apps on your Touchscreen.

Dual Mode Rotary Switches control elements of the advanced climate control system. Right and left dials control cockpit temperature on each side of the car when dual zone climate control is specified. These dials also control the optional seat heating functions.
F-TYPE Coupé is large enough to take a full set of luggage or two sets of golf clubs, with up to 408 litres of capacity. For ease of access the tailgate can be opened or closed at the touch of a button with the optional powered function.

*Option only available on Coupé derivatives.

VEHICLE SHOWN: F-TYPE S IN BLACK BERRY WITH OPTIONAL EXTRAS (MARKET DEPENDENT)
F-TYPE’s beating heart is supercharged – delivering high levels of torque at all engine speeds, so there’s no delay between the driver’s demand for power and the engine’s response. When cruising the engine thrums subtly, hinting at F-TYPE’s latent potential. Tap the accelerator and the engine growls with the promise of more power. As the revs rise the Active Sports Exhaust builds to a race-car inspired crescendo.

The Active Sports Exhaust is standard on F-TYPE and F-TYPE S. Active bypass valves allow exhaust gases to exit more directly, delivering a deeper, more dramatic sound. F-TYPE R has a Switchable Active Exhaust allowing manual control of the system, for even greater driver involvement. SVR’s Switchable Active Exhaust is made from Titanium and Inconel®, resulting in a 16kg weight saving and a supercar soundtrack.
ENGINES

F-TYPE offers two highly advanced engines with two power outputs each: 3.0 V6 340PS, 3.0 V6 380PS, 5.0 V8 550PS and 5.0 V8 575PS. Each features a Roots-type twin vortex supercharger that maintains the engine’s compact dimensions. To improve fuel economy, particularly during urban driving, a fast-reacting Intelligent Stop/Start* system is fitted to every F-TYPE as standard.

V6 ENGINES

0-100km/h from 4.9 seconds

Powerful and refined, for a thrilling and rewarding drive. The compact supercharger’s sophisticated boost control and secondary throttle valve give you a burst of power when you accelerate, with no lag. The water-cooled intercooler reduces air intake temperature for more power and efficiency. Power is smoothed and refined by innovative counter-rotating front and rear balancer weights. F-TYPE’s 3.0 V6 340PS engine achieves 450Nm of torque and acceleration is 0-100km/h in 5.3 seconds. The V6 engine in F-TYPE S has been modified to achieve a higher power output of 380PS and 460Nm of torque for even more potent performance. Acceleration is 0-100km/h in 4.9 seconds.

*Market dependent. Official EU test figures for comparison purposes only. Real world figures may differ.
Lightweight and powerful, this engine features a die-cast aluminium block to reduce weight. Dual independent variable cam timing optimises power at any speed. Cleaner, more efficient combustion is achieved by spray-guided direct injection of precisely measured quantities of fuel directly into the centre of the combustion chamber. F-TYPE R’s 5.0 V8 delivers up to 550PS and with an impressive 680Nm of torque. Acceleration is 0-100km/h in 4.2 seconds. F-TYPE SVR’s 5.0 V8 engine is the pinnacle of power, recalibrated to deliver up to an astonishing 575PS and 700Nm of torque. Acceleration is 0-100km/h in 3.7 seconds.
AUTOMATIC TRANSMISSION

Our eight-speed Quickshift automatic gearbox offers an unequalled blend of lightning-fast changes and superb refinement. Available on every F-TYPE, its eight closely-spaced ratios keep the engine within its most effective rev range for longer. The transmission control system is intelligent and adaptive. It monitors the driving situation together with the demands the driver is making on the car, and responds to provide a truly dynamic experience. Adaptive software automatically modifies the gearshift strategy, ensuring the right gear is selected for every situation.

You can also take full manual control with the gearshift paddles mounted behind the steering wheel, or the joystick-style SportShift selector. Dynamic Launch Mode is standard on F-TYPE S. It ensures maximum torque through every gear change, for optimum acceleration from 0-100km/h.
There's nothing more thrilling than changing gear manually in a sports car. Our lightweight six-speed manual gearbox provides that thrill. Designed for the high-revving V6 and rear-wheel drive (RWD) configuration, it's the perfect choice for sports car purists. The precision-engineered short-throw gear lever delivers snappy changes. The close ratio, six-speed manual gearbox enables the driver to keep the engine within its optimum rev range for longer. The pedals are perfectly placed for heel-and-toe changes, defining the definitive Jaguar sports car experience. Available on F-TYPE and F-TYPE S.
ADVANCED AERODYNAMICS

Aerodynamic performance is at the heart of F-TYPE’s design. It is seamlessly integrated into the body for low levels of lift and excellent stability at high speed. Even the door handles retract to create an uninterrupted airflow along its flanks. The deployable rear spoiler rises at higher speeds to reduce lift by up to 120kg. A front splitter beneath the grille manages airflow along the vehicle’s underside, with the sharply defined tail helping to separate air cleanly at lower speeds. The result is improved handling and stability.

VEHICLE SHOWN: F-TYPE S IN RHODIUM SILVER WITH OPTIONAL EXTRAS (MARKET DEPENDENT)
A lightweight aluminium body with a strong, stiff structure is the perfect platform for a sports car. We pioneered this technology over a decade ago and continue to push the boundaries today. It informs every aspect of how F-TYPE performs, handles and feels. A strong, stiff structure provides an inherently stable platform for precise, agile handling and allows the finely-tuned suspension system to deliver connectivity and driver feedback. Lightweight aluminium panels are bonded together with a super-strong adhesive, then punched with zinc-coated, boron steel rivets that compress the adhesive to form an airtight bond for phenomenal strength and rigidity. F-TYPE’s body is the perfect complement to its high-performance engine range. Together they produce the exceptional power-to-weight and torque-to-weight ratios that deliver the real world measures of performance in a sports car.

The exterior panels are made from specially developed alloys. They combine robustness with greater formability, which gives clarity and tightness to curves and feature lines. On Coupé models, the side pressing is one of the most technically advanced in the automotive industry. It allows for cleaner lines with an extraordinarily beautiful, uninterrupted sweep from the front pillar to the trailing edge. This combination of advanced materials and innovative techniques has two advantages. It allows us to reproduce F-TYPE’s crisp, crafted lines exactly as the designers intended. And it delivers a vehicle with extraordinary structural integrity.
ALUMINIUM SUSPENSION KNUCKLES

Designed to optimise stiffness and strength, the lightweight aluminium front and rear suspension knuckles help improve F-TYPE’s agility and responsiveness.

F-TYPE’s aluminium body creates an immensely stable platform from which the forged aluminium double wishbone suspension can control the car. With the damping set-up optimised for the best partnership between dynamics and refinement, it gives the perfect combination of control, agility and feedback.

On F-TYPE S, F-TYPE R and F-TYPE SVR, Adaptive Damping assesses body motion and pitch rates 100 times per second, and adjusts the settings for each damper accordingly. The system enhances control, handling and agility. It also rapidly detects and reacts to critical driving conditions and driver demands. This is achieved with a series of sensors that are placed around the car to monitor the body’s vertical movement, pitch and roll rates. The steering wheel position is measured 500 times a second enabling the system to predict the car’s movements. The stiffness of each individual damper is then adjusted to help maintain body control, stability and agility.
ADAPTIVE DAMPING
Standard on F-TYPE S, F-TYPE R and F-TYPE SVR, the Adaptive Dynamics system delivers both precise dynamics and a supple, luxurious ride by monitoring wheel position and body movements. The system constantly monitors conditions and adjusts the dampers to provide the optimum balance between comfort and refinement at all times.

CHASSIS
Considered by Jaguar as the best configuration for a suspension system, F-TYPE’s forged aluminium double wishbone design offers precise handling and control.
792,000 VIRTUAL VEHICLES CREATED TO PERFECT F-TYPE

1,413 LITRES OF RECYCLED WATER PER MINUTE BLASTED AT EVERY CAR TO ENSURE F-TYPE IS MONSOON PROOF

10,000,000 HOURS OF VIRTUAL TESTING, REDUCING OUR IMPACT ON THE ENVIRONMENT WITH SIGNIFICANT SAVINGS IN RESOURCE, WASTE, POWER AND FUEL

12,000 MILES OF EXTREME TRACK TESTING ON GERMANY’S INFAMOUS NÜRBURGRING RACE TRACK – EQUIVALENT TO DRIVING HALF WAY AROUND THE WORLD

12,000 MILES OF EXTREME TRACK TESTING ON GERMANY’S INFAMOUS NÜRBURGRING RACE TRACK – EQUIVALENT TO DRIVING HALF WAY AROUND THE WORLD
F-TYPE first took to the road in the virtual world of Jaguar’s Computer Aided Engineering (CAE) systems ensuring that all components underwent extensive development and testing before being committed to the physical testing process. Engineers produced a series of virtual prototypes to realistically simulate the behaviour of complex mechanical systems allowing them to analyse multiple variations until the optimum design was achieved. For example, using a technique first used in the aerospace industry, aerodynamic testing took place in a virtual wind tunnel with Computational Fluid Dynamics running on high speed supercomputers. During its virtual life, F-TYPE completed half a million analyses, requiring 10 million computer processor hours and creating 300TB of data. The CAE development process was one of the key contributing factors in delivering F-TYPE’s exhilarating performance and responsiveness.

The real world testing to fine tune the set-up took place in specialist facilities and the harshest environments across the globe in temperatures ranging from -40°C to +50°C, and at altitudes of up to 4,000m. High-speed stability tests, for example, were conducted at Nardo in southern Italy. The Nordschleife circuit at the Nürburgring in Germany was the perfect location to prove out handling, braking, cooling and durability. Known as the “Green Hell”, and featuring 20.8 kilometres of track with 73 turns, it is renowned as the most demanding circuit in the world and the ultimate test of both car and driver.
Dynamic Mode revises the car’s software to further enhance F-TYPE’s sporting character. It sharpens the throttle response, increases steering weighting and performs gearshifts more quickly* and at higher engine speeds. It also brings visual drama to the driver as the instrument cluster takes on a red glow. Dynamic Mode enhances your connection with F-TYPE’s inherent Jaguar performance.

Whether you’re accelerating on the motorway, cornering on country roads or navigating around town, Adaptive Dynamics modifies F-TYPE’s response to match the conditions and your driving style. It analyses acceleration, cornering, throttle and brake pedal activity as well as kick-down activation. Steering and body movement are analysed up to 500 times a second. Electronically controlled dampers then constantly adjust to optimise the suspension settings and maintain F-TYPE’s dynamism and comfort.

The Configurable Dynamics system allows you to set up F-TYPE’s dynamics for throttle mapping, gearbox shift points*, steering and configuring the damper settings to suit your performance driving needs.

*Automatic transmission only.
**Standard on F-TYPE S, F-TYPE R and F-TYPE SVR.
Engaging Dynamic Mode through the toggle switch sharpens throttle response, increases steering weighting and performs gearshifts faster at higher engine speeds. Dynamic Mode also prevents automatic upshifts when you’re driving in Manual Mode*.

F-TYPE S, F-TYPE R and F-TYPE SVR feature our Configurable Dynamics system. This lets you define which characteristics are altered in Dynamic Mode. This option also features the Dynamic-i system which can display G-Force and lap time as well as throttle, steering and brake inputs on the 8-inch Touchscreen.

*Automatic transmissions only.
LOW TRACTION CONDITIONS
On slippery surfaces, such as grass and mud, torque can be balanced 50:50 between the front and rear wheels to maximise traction.

DRY ROAD CONDITIONS
In normal conditions virtually all torque is distributed to the rear wheels, delivering legendary Jaguar agility and handling.
F-TYPE’s All Wheel Drive (AWD) system delivers confident handling on all surfaces. Available with Quickshift automatic transmissions, it makes F-TYPE S AWD, F-TYPE R AWD and F-TYPE SVR the most capable of sports cars.

Class-leading drivetrain technology offers a reduction in weight and an increase in efficiency compared to previous generation systems. The unique Intelligent Driveline Dynamics software features sophisticated algorithms that react intelligently to road conditions for traction on demand. As well as offering a smoother, safer drive, it also uses less fuel and has lower emissions than permanent AWD. Predictive, as well as reactive, the system helps prevent you from losing traction instead of working to regain it.

AWD also offers distinct characteristics between F-TYPE’s driver-selected modes. Dynamic Mode delivers a more energetic driving experience, with the added assurance of AWD stability. The Rain/Ice/Snow Mode improves control in poor conditions. The result is phenomenal cornering capabilities, providing outstanding levels of performance and control, whatever the road throws at you.
F-TYPE’s Torque Vectoring maximises capability through even the tightest corners. Torque Vectoring technology provides controlled independent braking of the individual, inside front and rear wheels to add to the turning forces acting on the car. In most conditions more braking pressure is applied to the rear inside wheel as this supports the most increased cornering capability, while the front inside wheel is braked for greater effectiveness and refinement. The result is reduced understeer for sharper turning and more consistent road holding.

Torque Vectoring delivers increased agility and added driver confidence.

On F-TYPE R and F-TYPE SVR, Torque Vectoring works together with the Electronic Active Differential system, complementing each other to optimise traction and cornering ability as well as maximising steering feel and agility.
MASS MOMENT OF INERTIA

The closer the weight is to the centre of the car, the easier it is to turn

\[ I = \sum_{i=1}^{N} m_i r_i^2 \]

Jaguar’s stability systems keep F-TYPE well-balanced whether you’re driving enthusiastically or simply require the assurance of a car that will remain stable in challenging conditions.

**Optimum Weight Distribution:** F-TYPE’s low centre of gravity reduces body roll in corners, while short front and rear overhangs concentrate mass within the wheelbase. Meticulous attention to detail in the design and construction has put the battery, electronic systems, and even the washer bottle, at the rear to give perfect balance. All these factors combine to ensure that F-TYPE is inherently agile and a real pleasure to drive.

**Electronic Active Differential:** On F-TYPE R and F-TYPE SVR, the Electronic Active Differential works with the stability, traction and ABS systems to manage torque delivery to each of the rear wheels. Full electronic control of the rear differential lock lets the system apply full locking torque almost instantaneously. On AWD models, the Intelligent Driveline Dynamics (IDD) system works together with the Electronic Active Differential. It helps increase traction and stability, giving full rein to F-TYPE R and F-TYPE SVR’s towering performance.
A range of braking systems are available, each one engineered to deliver a confident, progressive feel and consistent high performance. The calipers use aluminium to reduce the unsprung mass of the car, benefiting both handling and ride refinement. Each system features large, ventilated brake discs – up to 398mm in diameter on the Carbon Ceramic system. This large swept area improves braking force as well as providing greater capacity for the discs to absorb and dissipate the heat energy generated during braking.

Jaguar’s Carbon Ceramic Braking system, with its striking yellow monobloc calipers, is optional on F-TYPE S, F-TYPE R and F-TYPE SVR. The most powerful braking system ever fitted to a Jaguar road car, it offers up to 21kg of weight saving, further reducing unsprung mass. With greater resistance to fade and wear it delivers high levels of sustained performance in the most demanding conditions.

CALIPERS: SILVER
FRONT 354mm

*Jaguar Super Performance Brakes available as an option on F-TYPE and F-TYPE S.
**Carbon Ceramic Brakes available as an option on F-TYPE S automatic models, F-TYPE R and F-TYPE SVR.
InControl is our suite of advanced technologies that links both you and your F-TYPE to the wider world. Choose from two InControl Infotainment systems*: InControl Touch, available as standard, or for upgraded audio options, InControl Touch Plus.

*As we systematically introduce InControl, specific features, options and its availability remain market dependent.
**INCONTROL TOUCH**

**STANDARD ON EVERY F-TYPE**

- 8 inch Touchscreen
- 5 inch instrument panel display with analogue dials
- Jaguar Sound System (180W)
- FM Radio
- iPod, USB, Bluetooth and AUX connections

**InControl Remote** consists of SOS Emergency Call, Jaguar Optimised Assistance and the Jaguar Remote smartphone app

---

**OPTIONAL**

- InControl Secure provides Stolen Vehicle Monitoring and notifications via your smartphone and the secure call centre

**ADDITIONAL OPTIONS**

- Meridian Sound System (380W)
- InControl Touch Navigation
- DAB Radio

---

**INCONTROL TOUCH PLUS**

**FOR UPGRADED AUDIO OPTIONS**

- 8 inch Touchscreen
- 5 inch instrument panel display with analogue dials
- Meridian Surround Sound System (770W)
- FM Radio
- iPod, USB, Bluetooth and AUX connections
- CD/DVD Drive

**InControl Remote** consists of SOS Emergency Call, Jaguar Optimised Assistance and the Jaguar Remote smartphone app

---

**OPTIONAL**

- InControl Secure provides Stolen Vehicle Monitoring and notifications via your smartphone and the secure call centre

**ADDITIONAL OPTIONS**

- InControl Touch Plus Navigation
- DAB Radio
The InControl Touch and InControl Touch Plus multimedia systems are F-TYPE’s hub for connectivity, control and entertainment. The key features are:

- **8-inch Touchscreen** at the heart of the centre console. Clear graphical interface responds directly to touch for quick control.

- **Navigation guidance** makes planning journeys and following routes easy, thanks to turn-by-turn voice guidance and junction view. ‘Dead-reckoning’ functionality can accurately position the vehicle even when GPS signals can no longer be received - perfect for city centres or driving through tunnels.

- **Bluetooth phone connectivity** allows you to link and control your smartphone via InControl Touch either for phone calls or music playback - simple, easy and wire-free.

- **Access a world of music** thanks to FM, DAB, Satellite and HD radio (subject to regional fitment), as well as iPod, USB and AUX connections.

- **Integrated text-to-voice** technology reduces distraction by reading out incoming text messages. You can easily respond with short, prepared messages.*

- **Precise climate control** is available via the Touchscreen. Adjust temperature levels, direction and intensity of airflow.

---

**INCONTROL FEATURES**

**ADVANCED INFOTAINMENT AS STANDARD**

**CONNECTED FEATURES**

**INCONTROL PACKAGES AND APPLICATIONS**

- **Standard** on all F-TYPE models, InControl Remote is a package of technologies and applications that takes your F-TYPE’s connectivity to the next level.

- **SOS Emergency Call** automatically sends your location to, and puts you in contact with, the emergency services if the airbags deploy following an accident.

- **Breakdown Call** provides optimised assistance at the touch of a button. This feature puts you in contact with the recovery service and transmits key vehicle information, location, and certain diagnostics for a rapid response.

- **Remote App** is a multi-function app that allows you to monitor as well as interact with your F-TYPE from your smartphone. It gives you vital information and statistics about your car, including its location and whether any doors and windows are open or unlocked. The app can start the engine to pre-condition the climate**, lock and unlock the car, locate your F-TYPE on a map or by using the beep and flash function.

- **Optional Features** are available to further enhance your infotainment connectivity. These include:

  - **InControl Secure** provides the ultimate in peace of mind by detecting any unauthorised movement of your F-TYPE. The app will alert you via your smartphone, whilst the secure call centre will liaise with the authorities to pinpoint the vehicles whereabouts.

  - **InControl Apps** connects your smartphone with the Touchscreen in your vehicle, meaning you can stay safely connected to your smartphone even whilst in the car. InControl Apps enables you to control compatible apps on your Touchscreen, ensuring the safe and convenient use of apps that have been optimised specifically for use within your vehicle.

Simply download Jaguar InControl Apps to your smartphone. You can then connect your smartphone via a dedicated USB port to display compatible apps on the Touchscreen in the centre console.

---

*InControl Touch only. Requires compatible handset. Consult your local Jaguar Retailer for more details. InControl is the very latest in in-car technology for Jaguar. As we systematically roll out InControl its availability remains market dependent.

**Market dependent.**

Please consult your local Jaguar retailer for further details.
Three superb sound systems bring F-TYPE’s cockpit to life. The Jaguar Sound System adds depth and power to in-car entertainment with 6 speakers, 180W and 8 channels.

Working with British audio experts Meridian, we designed two higher specification systems specifically for F-TYPE. Digital Signal Processing (DSP) optimises Meridian’s advanced Cabin Correction algorithm. This tailors the music to the unique acoustics of F-TYPE’s interior. Dynamic Volume Control compensates for changes in sound levels, so you hear consistent sound through 10 speakers including 2 sub woofers, 380W and 12 channels.

The ultimate Meridian Surround Sound System for F-TYPE delivers 770W through 12 speakers. Using Meridian’s exclusive Trifield technology it creates an authentic and consistent music experience.
SOUND SYSTEMS AVAILABLE IN CONJUNCTION WITH INCONTROL TOUCH

Standard

JAGUAR SOUND SYSTEM
180 watts
6 speakers
8 channel amplifier

Optional

MERIDIAN SOUND SYSTEM
Dynamic Volume Control
380 watts
10 speakers
12 channel class D DSP amplifier

SOUND SYSTEM AVAILABLE IN CONJUNCTION WITH INCONTROL TOUCH PLUS

Optional

MERIDIAN SURROUND SOUND SYSTEM
Dynamic Volume Control
770 watts
12 speakers
16 channel class D DSP amplifier
Audyssey MultEQ Audio Equalisation
7.1 Surround Sound
Meridian Trifield Technology

VEHICLE SHOWN: F-TYPE S IN CALDERA RED WITH OPTIONAL EXTRAS (MARKET DEPENDENT)
SAFETY AND EFFICIENCY
ADVANCED DRIVER ASSISTANCE

F-TYPE’s advanced technology is designed to keep you safe and take the stress out of driving. It can help with everything from reducing the chance of a motorway collision to avoiding minor bumps in a car park. This range of advanced active and passive safety systems give you the reassurance, information and control to focus on the pleasure of the drive.

1. REVERSE TRAFFIC DETECTION
   This optional system helps you reverse safely out of a parking space. Sensors detect approaching vehicles from either direction and warnings are audible and displayed on the Touchscreen.

2. CLOSING VEHICLE SENSING WITH BLIND SPOT MONITOR
   Optional Closing Vehicle Sensing uses sophisticated sensors to help warn if faster moving vehicles are approaching from behind at a distance of up to approximately 60m. Blind Spot Monitoring is designed to provide an extra alert should the system detect a vehicle entering a pre-defined blind spot.

3. BI-FUNCTION HID XENON HEADLIGHTS
   These deliver an intense white light for both main and dipped beam in a single unit for improved night vision.

4. ADAPTIVE FRONT LIGHTING
   This optional system measures the speed of the car and angle of the steering wheel, swivelling the headlights by up to 14 degrees out and up to 7 degrees in, for improved visibility during cornering.

5. INTELLIGENT HIGH BEAM
   The optional Intelligent High Beam system automatically switches between low and high beam when necessary, using a sensor mounted at the front of the rear view mirror.

6. LED REAR LIGHTS
   LED technology creates the distinctive design of F-TYPE’s rear lights. They illuminate to full brightness faster than conventional bulbs, giving drivers behind you more time to react.

7. PEDESTRIAN CONTACT SENSING SYSTEM
   Help protect the people outside your car as well as those inside. If the car makes contact with a pedestrian, our industry-leading Pedestrian Contact Sensing System is designed to automatically raise the bonnet to help cushion a potential impact.

8. EMERGENCY BRAKE ASSIST
   If the brakes are applied rapidly, this system boosts braking force to the maximum for shorter stopping distances. It can also help retain greater steering control in unexpected situations.
VEHICLE SHOWN: F-TYPE R IN POLARIS WHITE WITH OPTIONAL EXTRAS (MARKET DEPENDENT)
EFFICIENT TECHNOLOGIES

LIGHTWEIGHT MATERIALS | CLEAN TECHNOLOGIES

F-TYPE uses a range of technologies to help reduce fuel consumption and CO₂ emissions, all while staying true to Jaguar’s dynamic nature.

INTELLIGENT STOP/START*

All F-TYPE’s engines are available with Intelligent Stop/Start. The system shuts down the engine when you come to a complete halt and restarts the engine immediately when required. It helps save fuel, especially during urban driving.

*Market dependent.
ELECTRIC POWER ASSISTED STEERING (EPAS)
F-TYPE's next generation Electric Power Assisted Steering (EPAS) offers outstanding feedback, control and immediate power assistance. Electrically driven, it's only active on demand which saves fuel.

SUSTAINABLE CONSTRUCTION
The aluminium alloy used for much of F-TYPE's construction is from a high level of recycled aluminium. Using significantly less energy than primary aluminium to produce, it minimises F-TYPE's environmental impact.

ADVANCED AERODYNAMICS
Aerodynamic performance is seamlessly integrated into F-TYPE's design for low levels of lift and excellent stability at high speeds. This has the positive effect of reducing F-TYPE's fuel consumption and CO₂ emissions.
R IS INTENSITY. IT PROVIDES MORE. MORE POWER. MORE DYNAMIC CAPABILITY. MORE THRILLS. F-TYPE R IS THE SPORTS CAR THAT IS MORE HONED, SENSUOUS AND EXCITING.
F-TYPE R is powered by Jaguar’s 5.0 V8 550PS supercharged engine with 680Nm of torque taking you from 0-100km/h in 4.2 seconds. With finely balanced power output and power-to-weight ratios, F-TYPE R’s extremely rigid bodyshell provides the definitive platform for suspension enhancements that harness every ounce of power on hand. When F-TYPE R is combined with optional All Wheel Drive (AWD), its synthesis of power, performance and handling is ready to take on almost any road conditions.
F-TYPE R’s interior dials up the intensity of the 1+1 experience. The R theme gives the car a unique personality and includes Dark Linear Aluminium on the centre console finishers. Enjoy Premium Leather with twin needle stitching and, for more lateral support during more enthusiastic driving, body-hugging Performance seats with embossed R logo on the headrest. Take complete control with the R 3-spoke leather steering wheel with Silver paddles.

VEHICLE SHOWN: F-TYPE R AWD FEATURING PERFORMANCE SEATS IN JET AND IVORY DUOTONE WITH OPTIONAL EXTRAS (MARKET DEPENDENT)
HOW CAN YOU IMPROVE ON THE TECHNICAL EXCELLENCE AND INTENSE THRILLS OF F-TYPE R? SVR IS THE FASTEST F-TYPE EVER. EVERY DETAIL DELIVERS ENHANCED PERFORMANCE. OVER 100 REFINEMENTS, WEIGHT REDUCTIONS AND TECHNICAL REINVENTIONS HAVE CREATED AN EXHILARATING SPORTS CAR THAT IS PURE JAGUAR.
SVR is F-TYPE honed beyond perfection. Its state-of-the-art materials and advanced aerodynamic design push F-TYPE beyond the extraordinary. Delivering supreme performance, ride and handling, the car creates once-in-a-lifetime driving experiences – every day. Its exceptional powertrain makes SVR our fastest production car ever. SVR is our ultimate sports car.
Based at a new Formula 1-inspired manufacturing facility, complete with customer commissioning suite, Special Vehicle Operations (SVO) is Jaguar’s centre of excellence and has been established to enable our most discerning customers to indulge their passion for Jaguar. SVR is designed and engineered at SVO where our highly skilled engineers and aerodynamics experts have scrutinised every possible component to maximise SVR’s performance.

SVR’s lightweight All Wheel Drive system, with Intelligent Driveline Dynamics, delivers its power with efficiency and control. The engine has been recalibrated. The 5.0 litre V8 unit’s twin vortex supercharger eliminates drag and surge for responsive performance at all engine speeds. 575PS and torque of 700Nm is maximised by a power-to-weight ratio of 337PS/tonne. Hold tight – it will take you from 0-100km/h in just 3.7 seconds and on to a top speed of 322km/h.* But it is about more than numbers, more than just a machine. Jaguar makes performance an art. SVR is our latest masterpiece.

*Coupe only.

AERODYNAMICS

SVR’s performance is not expressed by its exterior design: it is created by it. Form follows function in every swooping curve and finely drawn line. Each unique styling element, down to the smallest, subtle detail, improves SVR. Its advanced aerodynamic design offers less drag and higher levels of downforce. As a result SVR slices cleanly through the air, achieving rapid acceleration and effortlessly efficient cruising. Strong downforce improves stability and handling, road holding and dynamic capability.

FRONT INTAKES AND SPLITTER

Unique large lower bumper intakes maximise airflow for cooling of both the engine and brakes for improved performance. A precision splitter designed specially for SVR directs airflow into the car for optimum cooling. It also creates downforce at the front of the car to balance the rear wing.

BONNET LOUVRES AND SIDE POWER VENTS

Uniquely shaped louvres maximise airflow through the engine bay. This aids cooling, so the engine can operate at the highest level. Air from the wheel housing is released through side power vents which manage airflow around the wheel arch to minimise drag and improve SVR’s efficiency.

ENHANCED COOLING

SVR’s cooling system has been enhanced with significant improvements to airflow. To achieve this, the auxiliary radiator has been relocated, while the bumper beam profile and inlet trumpet size have been reduced. This increases the full performance envelope on SVR for greater endurance in extreme driving situations.
AERODYNAMIC WING
The aerodynamic wing is integral to SVR’s enhanced performance. Compared with the standard F-TYPE Coupé’s rear wing, SVR produces more downforce but crucially less drag. The wing is more elevated and wider than the standard F-TYPE R Coupé’s spoiler, enabling it to act over the whole width of the car rather than just the width of the boot lid.

Air passes both over and under the wing, allowing Bernoulli’s principle to act in the car’s favour – faster moving air underneath the wing is at a lower pressure than that passing over the top, resulting in additional downforce.

SVR’s wing operates in two different positions:
On F-TYPE SVR Coupé the aerodynamic wing deploys at 113km/h and stows at 80km/h.
On F-TYPE SVR Convertible the aerodynamic wing deploys at 97km/h and stows at 64km/h.

DEPLOYED
When SVR’s wing is deployed it increases downforce for greater stability and improved handling at top speed. In this position the wing gives a drag coefficient reduction of 2.5 percent and a lift coefficient reduction of 15 percent.

STOWED
For maximum top speed (V-Max), the wing is stowed to reduce drag. It works in conjunction with the front spoiler and other aerodynamic enhancements to bring a drag coefficient improvement of 7.5 percent and lift coefficient reduction of 45 percent.

V-MAX
In order to achieve 322km/h* you must consciously prepare your SVR. Select ‘Dynamic Mode’ and press the deployable aerodynamic wing switch for 3 seconds to enable V-Max mode. While active, a permanent symbol appears on the instrument cluster. In this mode the spoiler remains stowed at all speeds keeping drag to a minimum.

REAR UNDERFLOOR AND DIFFUSER
The smooth rear underfloor reduces drag, whilst the rear diffuser works with the rear underfloor to manage airflow, adding to SVR’s stability.

* Coupé only.
Weight is the enemy of performance. So we designed SVR to be as lean as possible. Every gram has a reason to be there. Every milligram saved gives you more rapid acceleration, more agile handling and sharper braking. Yet the interior still offers comfort and luxury in equal measures. SVR has the capability to make performance effortlessly enjoyable.
Just as no detail of SVR’s engineering and exterior design has been overlooked, its interior is testament to the SVO division’s attention to detail. The moment you open the door, the SVR treadplate shows that you are entering a special space.

Exclusive materials are everywhere you look, from fine contrast stitching to ultra-modern finishes that create a sense of total luxury. The SVR badged steering wheel with larger anodised shifter paddles offers the perfect connection to the road and the quilted Performance seats offer comfort and support while you enjoy the dynamic drive.

REAR WHEEL DRIVE (RWD) COUPÉ AND CONVERTIBLE

F-TYPE

KEY FEATURES
- Jaguar Performance Braking System with Silver calipers
- Sports suspension
- Active Sports Exhaust with centre mounted twin exhaust pipes
- 18” Vela alloy wheels
- Sport seats with Leather and Suedecloth facings
- 3-spoke leather steering wheel with Black gearshift paddles
  (automatic only)
- Light Hex Aluminium console finisher
- Available with Quickshift 8-speed automatic or 6-speed manual transmission

F-TYPE S

KEY FEATURES
- Jaguar High Performance Braking System with Black calipers
- Sports suspension with Adaptive Dynamics
- Active Sports Exhaust with centre mounted twin exhaust pipes
- 19” Propeller alloy wheels
- Configurable Dynamics System
- Limited Slip Differential
- Sport seats with Leather and Suedecloth facings
- 3-spoke leather steering wheel with Ignis gearshift paddles
  (automatic only)
- Dark Hex Aluminium console finisher with ‘S’ graphic
- Configurable Ambient Interior Lighting with selectable palette
- Available with Quickshift 8-speed automatic or 6-speed manual transmission

F-TYPE R

KEY FEATURES
- Jaguar Super Performance Braking System with Red calipers
- Sports suspension with Adaptive Dynamics
- Switchable Active Sports Exhaust with quad exhaust pipes
- 20” Gyrodyne Silver alloy wheels
- Configurable Dynamics System
- Electronic Active Differential with Torque Vectoring
- Performance seats with Premium Leather facings and R embossing
- 3-spoke leather steering wheel with Silver gearshift paddles
- Dark Linear Aluminium console finisher with R graphic
- Configurable Ambient Interior Lighting with selectable palette
- Available with Quickshift 8-speed automatic transmission
ALL WHEEL DRIVE (AWD)
COUPÉ AND CONVERTIBLE

F-TYPE S AWD

KEY FEATURES
(IN ADDITION TO F-TYPE S)
All Wheel Drive System
Intelligent Driveline Dynamics
'AWD' bonnet with body coloured vents
19" Volution Silver alloy wheels
Available with Quickshift 8-speed automatic transmission

F-TYPE R AWD

KEY FEATURES
(IN ADDITION TO F-TYPE R)
All Wheel Drive System
Intelligent Driveline Dynamics
'AWD' bonnet with body coloured vents
Available with Quickshift 8-speed automatic transmission

F-TYPE SVR

KEY FEATURES
All Wheel Drive System
Redesigned aerodynamics
Carbon Fibre Aerodynamic Wing
Jaguar Super Performance Braking System with Red calipers
Sports suspension with Adaptive Dynamics
Lightweight Titanium and Inconel® Exhaust
20" Coriolis Technical Grey forged alloy wheels
Configurable Dynamics System
Electronic Active Differential with Torque Vectoring
Quilted Performance seats with Premium Leather facings and SVR embossing
3-spoke leather SVR steering wheel with Aluminium gearshift paddles and twin needle contrast stitching
Dark Brushed Aluminium console finisher with SVR graphic
Configurable Ambient Interior Lighting with selectable palette
Available with Quickshift 8-speed automatic transmission

屋顶风格

JAGUAR F-TYPE 提供一系列不同的屋顶，以适应您自己的个人风格。每一种屋顶都具有独特的特性，它们以强大的方式表达个人魅力，既在车内，也在车外。

全景玻璃屋顶

全景玻璃屋顶引入了更多自然光和空气感，为车内的乘客提供了完整的视野。铝制屋顶为 F-TYPE 的运动车形式提供了最佳的匹配。铝制屋顶在颜色、风格和线条方面与 F-TYPE 的强大外形相得益彰。

碳纤维屋顶

碳纤维屋顶的外层和内层面板通过焊接结合，形成一个坚固且轻巧的屋顶结构。F-TYPE 敞篷车的可选碳纤维屋顶比标准的铝制屋顶轻20%。它具有可见的碳纤维编织，通过深色、高光漆面。

织物屋顶

JAGUAR F-TYPE 的敞篷车的轻质织物屋顶经过隔音处理，具有复合面料以减少噪音，并附带一个固定加热的后窗。屋顶可以在12秒内上下，无需操作即可在50公里/小时的速度下自动操作。

To find out more about the full range of retailer fit Jaguar Accessories, please refer to your retailer or go to accessories.jaguar.com
**Chrome Gearshift Paddles**  
T2R6547MMU  
Replacement steering wheel gearshift paddles offered in a premium Chrome material providing a high quality finish to a key contact point in the vehicle.

**Sports Pedal Covers (Automatic)**  
C2P23554  
Made from stainless steel and rubber, the pedal kit fits securely over existing pedals for a contemporary, sporting appearance.

**Premium Carpet Mats**  
T2R16570PVJ – Left Hand Drive  
T2R16571PVJ – Right Hand Drive  
Luxurious, tailored 2,050g/m2 pile front carpet mats with embossed Jaguar logo and nubuck edge binding. The premium mats provide a well appointed finishing touch to the interior.

**Premium Luggage Compartment Carpet Mat**  
T2R11270PVJ  
Luxurious soft luggage mat in Jet Black with the Jaguar logo. Deep premium 2,050g/m2 pile with nubuck edging.

**Personalised Illuminated Sill Treadplates**  
T2R6091  
Elegantly styled stainless steel sill treadplates finishers for driver or passenger doors. Illuminates when either the driver or passenger doors are opened. Highlighted by soft phosphor blue lighting. Allows customer to specify a monochrome ‘motif’ in a choice of approved typefaces/scripts.

**Carbon Fibre Console Finisher**  
T2R5267  
Exclusive premium finish for the centre console offered in a Satin finish to minimise glare and reflections. Comprises Carbon Fibre centre console, centre dial and centre fascia replacement trim.

CHOOSE YOUR
JAGUAR ACCESSORIES

Configure your vehicle at jaguar.com

Carbon Fibre Side Power Vents
T2R5394 – Left Side
T2R5393 – Right Side
High grade Carbon Fibre side power vents provide a performance-inspired styling upgrade. Left and right side options available.

Chrome Side Power Vents
T2R2262 – Left Side
T2R2263 – Right Side
Add distinctive sporting style to your vehicle with Chrome finish side power vents with Gloss Black mesh infill panel. Left and right side options available.

Carbon Fibre Bonnet Louvres*
T2R5275PEC – Left Side RWD
T2R5274PEC – Right Side RWD
T2R16704 – Left Side AWD
T2R16703 – Right Side AWD
High grade Carbon Fibre bonnet louvre featuring a 2x2 twill weave and a High Gloss lacquered finish. Provides a performance-inspired styling enhancement coupled with weight benefits associated with Carbon Fibre. Left and right side options available.

Chrome Mirror Covers
T2R5399 – Left Side
T2R5400 – Right Side
Chrome mirror covers accentuate the stylish design of the exterior mirrors. Left and right side options available.

Carbon Fibre Mirror Covers
T2R5390 – Left Side
T2R5389 – Right Side
High grade Carbon Fibre mirror covers provide a performance-inspired styling upgrade. Left and right side options available.

Carbon Fibre Front Splitter Blade
T2R12001
Premium exterior styling upgrade to highlight the dynamic capabilities of the F-TYPE. Kit includes lower centre section of the bumper along with the two outer splitters in a premium high grade Carbon Fibre with a 2x2 twill weave and a High Gloss lacquered finish. Provides a performance-inspired styling enhancement coupled with weight benefits associated with Carbon Fibre.

*Not applicable for AWD models.
**Available for F-TYPE Convertible only.
All Weather Car Cover
T2R4364
All-weather tailored cover for the F-TYPE with the Jaguar logo. Protect your F-TYPE from the elements, including showers, frost and dust. Quick and easy to fit.

Chrome Roll Hoops**
T2R5396 – Left Side
T2R5395 – Right Side
High grade Carbon Fibre roll hoops featuring a 2x2 twill weave and a High Gloss lacquered finish. Provides a performance-inspired styling enhancement coupled with weight benefits associated with Carbon Fibre. Left and right side options available.

Rear Mounted Ski Carrier
T2R13769 – V6
T2R11987 – V8
Carrying up to two pairs of skis of up to 1.9m in length, this lockable carrier has been designed to ensure skis remain at ambient temperature in transit with minimal wind noise and resistance. Mounting mechanism has been positioned discreetly beneath the rear bumper ensuring a clean finish when the carrier mounting arms are removed. Following initial retailer installation the carrier can be removed easily in a matter of minutes.

Carbon Fibre Roll Hoops**
T2R5402 – Left Side
T2R5401 – Right Side
Bright finish accents highlight the F-TYPE exterior styling cues. Left and right side options available.

Wind Deflector**
T2R6106
Simple to fit and remove, the wind deflector reduces air draught and turbulence in the passenger compartment, even at high speeds. Supplied with a Jaguar branded stowage bag. Optional roll hoops shown.

Carbon Fibre Engine Cover
T2R8019
Carbon Fibre engine cover provides weight benefits and premium finish to the engine compartment. Features Jaguar branding.

Rear Mounted Ski Carrier
T2R13769 – V6
T2R11987 – V8
Carrying up to two pairs of skis of up to 1.9m in length, this lockable carrier has been designed to ensure skis remain at ambient temperature in transit with minimal wind noise and resistance. PERSONALISATION | 113
DIMENSIONS

Dimensions shown are based upon F-TYPE R, Coupé and Convertible. For details of all derivatives please refer to the Technical Specifications page 112 and 113.

**Overall Width** (inc mirrors) 2,042mm
**Overall Width** (exc mirrors) 1,923mm

**Boot Volume** 408 litres (Coupé) 207 litres (Convertible)
Turning Circle
Kerb to Kerb 10.7m

Dimensions were measured with vehicle at unladen weight. (Measured by VDA standard test method using 200 x 100 x 50mm blocks; second value: with rear seat folded down).
VEHICLE SHOWN F-TYPE R IN POLARIS WHITE WITH OPTIONAL EXTRAS (MARKET DEPENDENT)
BEHIND THE SCENES

Our factory tours give you the unique opportunity to experience the whole process of how our cars are brought to life – from the moulding of sheet metal to those intricate final touches. At our state-of-the-art production facilities, you’ll get to see how skilled technicians and sophisticated machines work seamlessly together to perfect some of Jaguar’s most breathtaking cars – from the powerful F-TYPE to the groundbreaking F-PACE performance SUV.

Find out more at jaguar.com/experience-jaguar/behind-the-scenes

JAGUAR EXPERIENCE

There’s no better way to get to know Jaguar than by taking a drive. The Jaguar Experience offers a range of unique opportunities to really find out what it feels like to get the most out of a Jaguar. Our track experiences allow you to push yourself and cars from the incredible Jaguar range to the limit. Jaguar Experience also offers the opportunity to see a Jaguar brought to life during a tour of one of our UK manufacturing facilities.

Find out more by visiting jaguar.com/experience
DRIVING EXPERIENCES

The opportunity to drive the latest Jaguar cars at their limits, or relive iconic Jaguar history, is rare. Jaguar Driving Experiences offer unique driving adventures you will never forget. Imagine yourself behind the wheel of our highest performing Jaguar models, on a private track, with a Jaguar Experience Instructor at your side. This is the Jaguar Performance Driving Academy.

Find out more at jaguar.com/experience-jaguar/driving-experiences

ICONIC EXPERIENCES

Take your driving to the next level with our international adventures facing extreme on-road, and off-road, conditions. Our Iconic Experiences offer journeys and challenges that will test and develop your performance driving skills. Every year, Jaguar customers and enthusiasts join us for our luxury Ice Driving Experience. The exclusive ski resort in Gstaad, Switzerland, is the perfect location to enjoy the thrill of performance driving on ice. Our Ice Driving Experience is a two-day getaway held each winter. You can get a flavour of the event below. Then, if you’d like to be part of it in the next experience, we can keep you posted.

Find out more by visiting jaguar.com/experience-jaguar/iconic-experiences
THE WORLD OF JAGUAR

Choose an F-TYPE and you’re joining the exciting World of Jaguar. It makes owning and driving carefree and easy, as well as providing a range of exclusive services and lifestyle products.

JAGUAR CARE*

F-TYPE is now offered with a new unlimited mileage, three year warranty and three years’ servicing programme at no additional cost. We call this programme Jaguar Care. It makes F-TYPE’s overall cost of ownership one of the lowest in its class.

GENUINE PARTS

Jaguar Genuine Parts are designed, tested and manufactured to our uncompromising standards for quality, fit and durability. Each part is engineered specifically for your F-TYPE to contribute to optimum performance and to help maximise its lifespan.

JAGUAR FINANCIAL SERVICES

Effortless performance and style come as standard with every Jaguar. Jaguar Financial Services makes buying one just as simple and rewarding. New or used, for personal or business use, we have an option that puts you in complete control. Please speak to your local Jaguar retailer to find out more.

*Available on selected European markets only
JAGUAR ASSISTANCE
Jaguar Assistance provides assistance in motoring emergencies, all the way from immobilisation due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, wherever you happen to be.

FLEET & BUSINESS
Jaguar is dedicated to being the premium manufacturer of choice for fleets and businesses by providing a highly attractive car range and exemplary customer service. Jaguars are dynamic and distinctive cars that help companies express the unique character and personality of their business. We are committed to providing totally customer-focused aftersales services, which keeps every Jaguar car on the move and in top condition, ensuring that they perform to the highest standard and in the most cost-efficient way for businesses. Visit jaguar.com/fleet-and-business for more information.

JAGUAR MAGAZINE
Jaguar Magazine is the official magazine of Jaguar Cars. It features the Jaguar F-TYPE, F-PACE, XJ, XE and XF, and the worlds of luxury, style, design and travel.

JAGUAR MERCHANDISE
The latest Jaguar Collection has been crafted with the same design execution and attention to detail that goes into all of our cars. This is evident in our clothing range, premium leather items and luxury travel goods. To celebrate Jaguar’s heritage we also have a collection that honours past achievements and features race inspired gift items and apparel. To find out more, visit the online shop at www.jaguar.co.uk/shop
GLOSSARY

ABS SYSTEM
This anti-lock braking system prevents wheel lock up under heavy braking to maintain vehicle control.

ACTIVE SPORTS EXHAUST
This system features active valves that, when open, allow the exhaust gases to exit via a more direct route producing a richer, more exhilarating noise. The system also allows the driver to use a button on the centre console (if optioned) to manually activate the valves.

AMBIENT INTERIOR MOOD LIGHTING
Ambient Interior Mood Lighting highlights many of the cabin’s key features and design details in a relaxing soft phosphor blue glow.

CABIN CORRECTION ALGORITHM
Meridian’s Cabin Correction Algorithm intelligently and discreetly optimises the audio system to the precise acoustics of the vehicle cabin, preserving the natural rhythm of the performance.

CAE DEVELOPMENT PROCESS
Computer-Aided Engineering (CAE) is the usage of computer models and software to aid engineering analysis.

COMBUSTION CHAMBER
A Combustion Chamber is the part of an engine where the fuel and air mixture is burned.

DIE-CAST ALUMINIUM BLOCKS
Die-casting is a metal casting process used to form the aluminium blocks for F-TYPE’s engines. It involves forcing molten metal under high pressure into a mould. This allows for excellent dimensional accuracy and the casting of thinner walls.

DSP AMPLIFIER
Meridian’s Digital Signal Processing (DSP) technology analyses a range of variables that may impact audio quality, then processes them using sophisticated algorithms and adapts the system’s output accordingly. This enables a level of powerful, authentic performance impossible with a conventional sound system.

DUAL INDEPENDENT VARIABLE CAMSHAFT TIMING
Dual Independent Variable Camshaft Timing is a feature whereby the engine can adjust the timing of both the intake and exhaust valves independently. This allows for improved power and torque, particularly at lower engine revs, as well as improved fuel economy and reduced emissions.

DAMPERS/DAMPING
Dampers absorb forces acting on the suspension for greater ride comfort and control. Dampers are also known as shock absorbers.

FORGED ALUMINIUM DOUBLE WISHBONE SUSPENSION
F-TYPE’s front and rear double wishbone suspension is an independent suspension design using two wishbone-shaped arms to place the wheel. Double wishbone designs deliver precise handling and steering response.

INCONEL
Inconel is a family of austenite nickel-chromium-based superalloys. Inconel alloys are oxidation and corrosion resistant materials well suited for service in extreme environments subjected to pressure and heat.

INTELLIGENT STOP/START
Stop/Start is a technology that stops the engine when it is not needed, improving the fuel economy and reducing the car’s CO₂ emissions. The engine will restart immediately as soon as the driver’s foot comes off the brake pedal. The engine will be operating at full capacity before the driver’s foot has touched the accelerator pedal.

MANUAL MODE
Manual Mode is a mode available on automatic transmissions that allows you to manually upshift and downshift.

MERIDIAN TRIFIELD TECHNOLOGY
Meridian’s exclusive Trifield technology, delivers a consistent, concert-like experience, optimised for all seating positions.

MONOBLOC CALIPERS
Monobloc Calipers are forged from one piece of metal. This makes them more resistant to flex under load, so they waste less energy and deliver consistent braking feel.

MULTI-PLATE CLUTCH
A Multi-plate Clutch uses several friction discs to transmit power from the engine to the transmission. This decreases drag and increases the amount of torque that is transmitted while minimising the amount of force needed to operate the clutch, enabling faster and smoother shifting.

SHORT-THROW GEAR LEVER
A short-throw gear lever has a reduced length to enable swifter gear changes.

SUPERCHARGED PETROL
A petrol engine with a supercharger. A supercharger is a forced induction device mechanically driven by the engine. It offers higher power outputs and immediate, linear response at all engine speeds.

XENON HEADLIGHTS
Bi-function Xenon headlights offer improved illumination and feature LED ‘J’ Blade Daytime Running Lights for a striking on-road style.
ENVIRONMENTAL INNOVATION AT JAGUAR

F-PACE, XF, XE, XJ and F-TYPE's innovative use of lightweight aluminium, which incorporates up to 50% closed-loop recycled material from the manufacturing process of the body structures, provides considerable performance benefits. This includes improved fuel consumption and less CO2 emissions during the use phase of the Life Cycle due to lighter structures. Our on-going target is to ensure scrap aluminium reclaimed from our stamping process is to be segregated and recycled through a closed loop system and incorporated back into the same grade quality aluminium sheet, therefore reducing CO2 emissions, versus the use of virgin aluminium sheets, during the production phase of the Life Cycle.

Jaguar is committed to reducing dependency on fossil fuels, using fewer natural resources and creating less waste as part of our approach to responsible and sustainable business development, called Environmental Innovation.

The company plan includes ongoing reduction in CO2 emissions and the use of natural resources and at the end of 2014 we have achieved a 28% reduction in operating CO2 emissions, 25% in the Company's European fleet average tailpipe emissions, 75% in waste to landfill, logistics efficiencies (18%) and water consumption (10%), all based on per vehicle built since 2007. In addition the manufacturing assembly CO2 emissions of each Jaguar built in the UK since 2009, is 100% offset as part of our 2020 strategy for carbon neutral manufacturing assembly and since 2013 carbon-for-development projects form a key part of the company's Global Corporate Social Responsibility (CSR) programme.

For each tonne of CO2 emitted in the assembly process, the company invests in emissions reductions projects that reduce an equivalent tonne of CO2 elsewhere and provide social and humanitarian benefits at the same time.

Since 2013 the programme has offset 800,000 tonnes of CO2 and improved the lives of over 2 million people from our award winning Lifestraw carbon-for-water emissions reduction programme. Taking into account the company's global sales growth and increased investment in more efficient operating facilities, we are proud to have delivered and in some cases exceeded our Environmental Innovation targets as planned between 2012-2015.

But it doesn't stop there. Our manufacturing facilities have been certified to ISO14001 since 1998 and in 2013 the Company was recognised as the UK's Responsible Business of the Year by leading CR index, Business in the Community. In 2014 we built on this success through the Queens award for Enterprise in Sustainable Development for 2014.

Looking forward, we have developed our 2020 vision for sustainable business growth that focuses on continued improvements in operating and tailpipe CO2 emissions, carbon neutral manufacturing and zero waste. The company will also improve the lives of 12 million people by 2020 as part of the global Corporate Social Responsibility programme.
